The dynamics of successful commercial development hinge on the ability to be prepared, to plan for changes in the market place, and to be sensitive to the needs of tenants and their customers.

The purpose of business is to create and keep a customer. All business activities must be focused on this central purpose.

Dynamics of Success

As a multi-service development company, Peter P. Bollinger Investment Company has the ability to produce unique and profitable real estate developments that benefit and enhance the communities within which they are developed. PPBIC believes in investing in the land, the people and the communities.

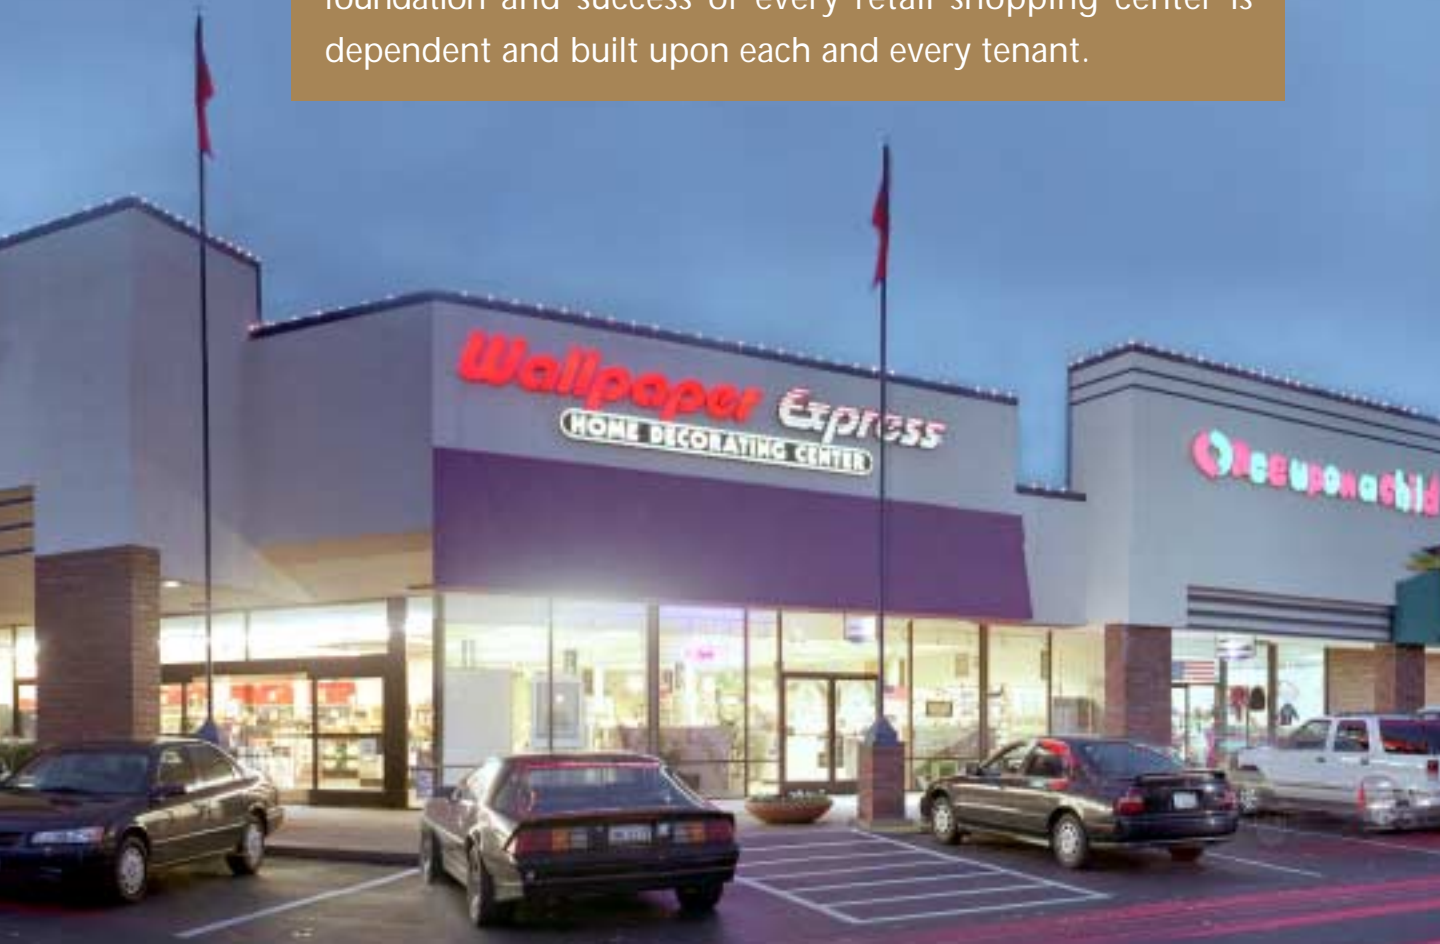

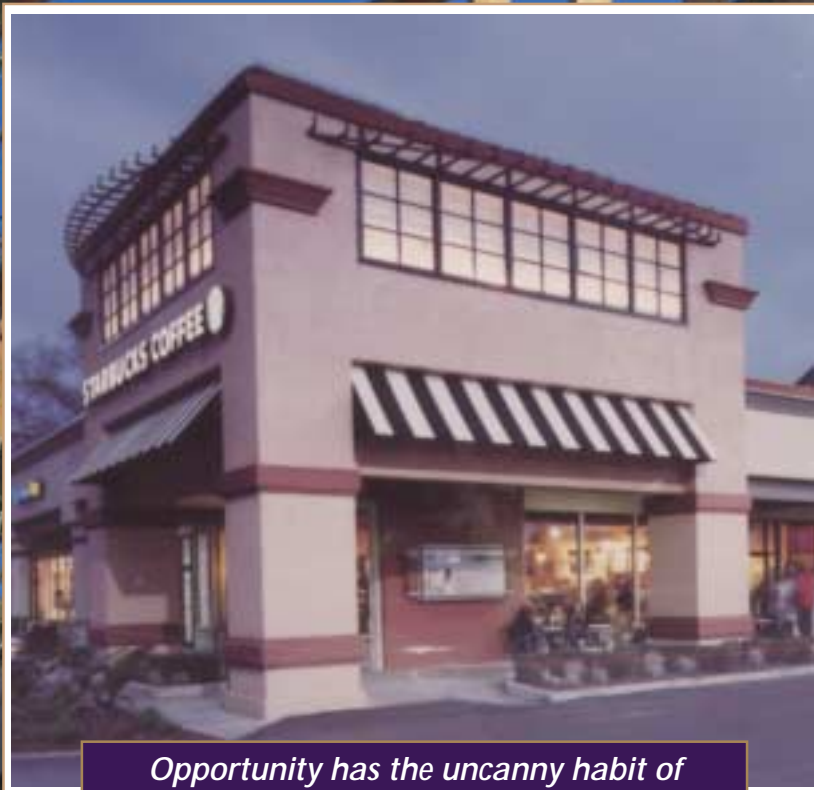

"Chances favor only the mind which is prepared."
-LOUIS PASTEUR

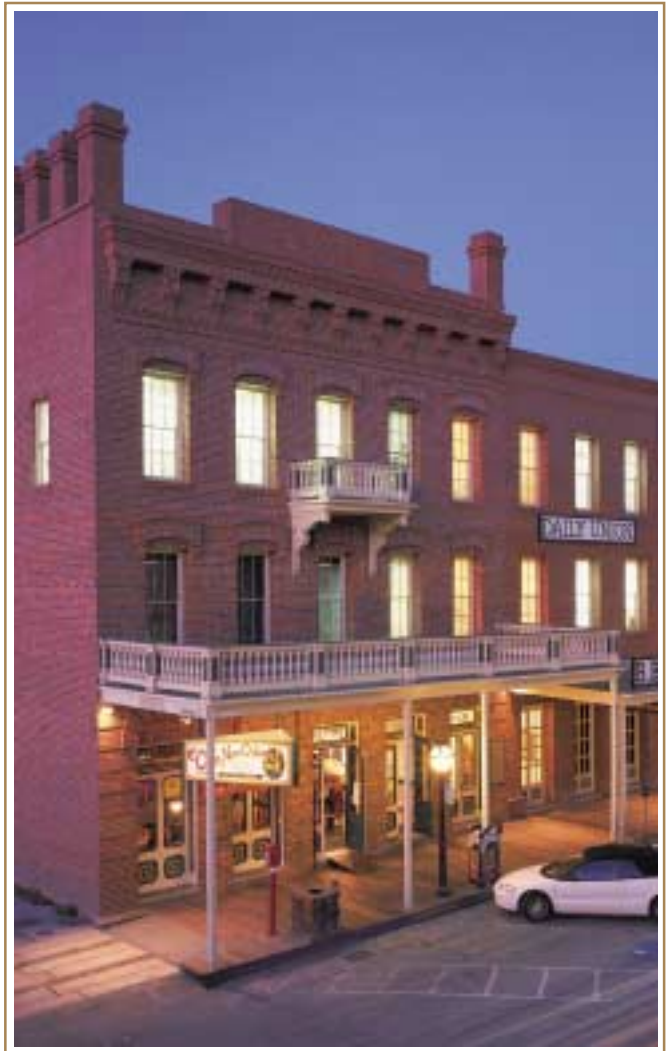

Without People, it's just space.

A shopping center is only as successful as its tenants...
At Peter P. Bollinger Investment Company, we believe the foundation and success of every retail shopping center is dependent and built upon each and every tenant.

Opportunity has the uncanny habit of favoring those who have paid the price of years of preparation.

With over 30 years of development experience, the Peter P. Bollinger Investment Company understands the need to be schedule sensitive and work within budget guidelines to achieve the utmost in project goals, no matter what type of real estate development.
